

Council November 2021

Item 5.2 Matters Arising/Update (Summersales Hill Flooding)

Update received 22 October 2021 from ES Highways to WPC Volunteer Highways Coordinator & County Cllr Taylor:

“Dear Councillor Taylor and Barry,

Apologies for the delay in getting back to you.

I can advise that following a review of the issues on Summersales Hill, remedial works have been added to an upcoming drainage programme. At present, I am awaiting dates for these works, please be advised that works in this programme are being planned on a priority basis. Also due to environmental concerns in the area, these works are subject to a full environmental risk assessment prior to commencing. Therefore, at present I do not have a timeframe for when these works may be planned in.

The proposed works include excavating and replacing several collapsed outlets as well as general surveying and clearance works.”
