

Council September 2022

Item 12 COMMUNITY WARDEN REPORT JUNE ONWARDS 2022

Parking issues

2. Corseley Road

2. Orchard Rise Estate

3. Withyham Road

2. Station Road D/Y Lines

Warning cards have either been issued or words of advice have been given to the owner for where they are parking causing a danger.

Updates by shifts

24th June

Corseley Road DPD Van came speeding down the road past St Thomas's school. As he was approaching, I started to Gesture to him to slow his speed down. The driver then slowed and acknowledged me for going too fast and carried on down the road at a much slower speed.

11th July

Static school patrol on pavement outside the Hairdressers with pocket notebook & pen in hand. I never saw a single parent speed past me in either direction. No parent even tried to drive the pavement to get past another car, they stayed back and waited to let others through.

Other patrols have been carried out around Withyham Road into Florance Lane and Wallis fields & Gromenfield also checking on the Bowls Club & Spa Valley Railway speaking with some of the volunteers helping run the station.

29th July. Carried out a patrol down past the waterworks station, then visited the tennis club to check that all was in order.

9th Aug

white transit parked over pavement and junction of Oaklands. Male was carrying out gardening duties. It was explained to him that he was causing a pavement obstruction and causing restricted vision right on the junction. Vehicle was moved onto the road further up.

Youth shelter litter bin full up WDC had not emptied it. WDC waste manager emailed with photo stating that the bin had been missed and arrange for it to be done asap.

15th Aug D/Y lines monitored outside Post Office, asked a motorist if they could just reverse back off the lines as they didn't have a permit to park on them, this was done with no fuss.

A contact card was left through the letterbox of a property alongside of the twitten leading into Orchard Rise as some of the vegetation from the other side of the garden fence was overgrowing out into the path of people walking through. I was just requesting the owners if they could cut back the overgrown sections making the access more accessible to walk through.
